Materials you'll need for the basic construction of this project include:

- 1 - 3-1/4" x 11" piece of cardstock
- 1 - 3-1/4" x 12" piece of cardstock
- 2 - 1-1/2" x 4-1/2" pieces of cardstock
- Sticky Strip
- Snail adhesive for adding decorations

Additional patterned paper, cardstock, and embellishments for decorating.

Tools necessary for creating this project include:

- Paper cutter
- Scoring tool
- 2-1/2" circle punch

Stamps and punches of choice for decorating.

A delicious cupcake to sit in your throne!

### Directions

1. Score the 3-1/4" x 11" piece of cardstock 1" from each end. This is the base of the cupcake throne.
2. Score again 5" from each end.
3. Punch with 2-1/2" circle punch in section D as shown on template A.
4. Score the 3-1/4" x 12" piece of cardstock 6" from one end in the exact center. This is the back of the cupcake throne.
5. Score the 1-1/2" x 4-1/2" pieces 1/4" from each side. Cut diagonally across the corners. These are the sides of the base of the throne.
6. Fold the base, back, and sides along the score lines.
7. Place sticky strip as shown on template.
8. Using Diagram 1, assemble cupcake stand by turning base upside down.
9. The sticky strip on section A should be on top. Fold section A up.
10. Fold section C up as well, then fold the next score line so that section D (with the hole) is on top.
11. The sticky strip on section E should be on top. Fold section E down.
12. Fold the back in half along the score lines. All sticky strip should be on the inside.
13. Remove the liner from the sticky strip on section A and the bottom of section F. Adhere section F to section A as shown in Diagram 1.
14. Remove the liner from the sticky strip on section E and adhere to section F as shown to create the base.
15. Remove all of the sticky strip from section G and adhere down to sections F and A as shown.
16. Remove the sticky strip from one side of the side pieces and adhere to the inside of the base along the bottom of one side. Remove the sticky strip from the other side and adhere to the inside of the base along the top. Repeat for the other side.

Side Pieces - Cut 2

Score 1/4" from each side. Cut diagonally across corners.
