Out of respect for the limitations placed on SU! Demonstrators, I have chosen not to sell my items over international borders, including Canada.

For sets with matching dies or punches, buy both together, get \$1 off. These are marked with an asterisk.

Most of the stamps that are from before the 2014 Occasions catalog have the stickers applied. Starting with the 2014 Occasions catalog, I stopped applying them to my stamps, but instead I slipped

them behind the paper on the front of the stamp case, so you will be able to apply them after you buy them if you wish.

If you can't find a picture online of what something looks like please feel free to email me and I will provide a picture.
